Checkpoint 5 Jacco 02-12-2022

**Dyulgeryan, Vartan V.S.** a month ago

Showed demo with creating and reading products, reading series with authorization and authentication, functional login and logout. Updated documentation. Progress is on track, need to focus on user stories with crud operations (finish products and series crud operations), adding websockets to application and shopping cart (user story for shopping cart), adding CD to pipeline.

Describe what goes well according to your teacher, what you should pay more attention to and what is your next step to achieve the learning outcomes...

Checkpoint 4 Maja 25-11-2022

**Dyulgeryan, Vartan V.S.** 2 months ago

Showed a demo with login, logout functionality and overview of products. Currently working on register users and adding new products as administrator. CD with 3 different containers is set up.

Checkpoint 3 Maja 07-10-2022

**Dyulgeryan, Vartan V.S.** 3 months ago

C4 architecture is ok. Showed a small demo of the connection between the back end and front end. Need to create applied research document, talked about the options of storing images which will be explained in the applied research document.

Checkpoint 2 Jacco 04-10-2022

**Dyulgeryan, Vartan V.S.** 3 months ago

Backend is good, database connection is established with JPA repositories and unit tests with mocking.
Front End with first axios GET method is working. Need to start on C4 and Research Method documentation.
